Sculpting a wide range of TV programming to entertain varied audiences

GEARING UP FOR ROBUST GROWTH IN MOVIES

44

Capitalising on the high potential digital space globally

WE ARE WHERE OUR AUDIENCE IS

As global viewership continues to evolve, we have anticipated future trends and created new entertainment paradigms. Today, we straddle across all the three distinct platforms through which people consume entertainment –
**Television,
Movies and
Internet
Video-On-Demand.**

We are content innovators, creators and producers of unmatched credentials and long-standing success. We operate as a vertically integrated studio model, which allows us to create, distribute and monetise content, not only in ways that are best aligned with viewer preferences, but in ways in which we can capture the maximum value stream. With a focus on chasing quality growth, we continue to create gripping content – content that is relevant to diverse sets of audiences and accessible across multiple platforms.

With geographical boundaries disappearing in the seamless world of the internet, we aim to make our content seamlessly available. Improvement in mobile broadband infrastructure, gradual reduction in cost of internet and increase in smartphone screen sizes is driving consumer preferences.

The Subscription Video on Demand (SVOD) market in India is on the cusp of a meteoric take-off. As Over The Top (OTT) video consumption continues to grow tremendously, we are leveraging our capabilities to create content across platforms. Our motive is vertical integration across the value chain by offering our own OTT services. We are making our delivery channels more closely aligned to the emerging needs and creating entertainment-on-the-go for our dynamic audiences.

So, while our Television business is our solid ground for stability, profitability and predictability; our Movie business is about quantum gusts of growth and a force of reckoning within the pinnacles of the entertainment industry. The launch of our newest vertical – ALT Digital Media Entertainment Limited, the digital media and Internet video-on-demand business – is part of our continual string of path-breaking developments.

Our digital business is all about igniting a surge in direct entertainment consumption, from which we can now capture the entire value stream, right from the earliest sparks of content ideation to the final point of the consumer across platforms. In time, we wish to emerge as one of the most recognised and most influential entertainment providers across conventional and new digital channels.

Our scale of operations, engaging content and innovative business strategy makes us stand out. With our three-pronged growth strategy covering television, films and digital B2C, we are looking at becoming a diversified content originator and a new-age media distribution company.

Chairman's Message

Dear Shareholders,

Our 22 years of operations have taught us many lessons, but what remains sacrosanct at Balaji is our zest to cater to consumer preferences and audience behaviour, by aligning our creative capabilities and infrastructure. We continue to leverage our competitive strengths of enduring relationships with leading talent, diversified revenue streams and strategies to mitigate risks and promote cash flow generation. We continue to grow from strength to strength with the prime objective of making our audiences delighted and generating revenues for our stakeholders. We spent the year building our core competencies of content and expanded into areas where we have identified a profitable niche.

Year in Brief

FY2016 was an important year in our history as we took our early steps into our digital foray. With ALT Digital, we are poised to establish a new business model that allows us to connect directly with our audiences in a way that we never have before. It will allow us to leverage our vast library of content, as well as new cutting edge exclusive stories and documentaries for capturing the maximum value possible. As the leading digital channels of the west have demonstrated, it will allow us to form a new equation with our audiences that can now view anything of their choice on demand and not at prescribed time-slots. It will also allow us to leverage the freedom that the internet allows us to connect with audiences anywhere in the world, opening up the potential to be directly connected with the global Indian diaspora. Fast forward ten years from now, FY2016 will be seen as the year in which our Company was reborn.

Our Future Slate in TV & Movies

Even as our TV business continues to grow consistently, our movies vertical is gradually picking up speed. Several exciting movie projects are already in the pipeline over the next couple of years, which are in various stages of production. We plan to scale our movie business judiciously in the coming years, with several interesting initiatives underway. We are actively getting our slate ready for FY2017 and FY2018 for our movies business.

Besides top-rated shows on TV across different channels and genres, we aim to offer a diverse set of out-of-the-box products across all genres. Anyone consuming content, whether on TV, films, mobile, should choose Balaji as highest quality source – that's our ultimate aim. The driver to achieve this vision continues to be the same – superbly-innovative ideas appealing to mass sensibilities across medium.

Moving Ahead

The next couple of years will see us growing the ALT Digital business, stabilising and growing the movie business and strengthening our TV business in the manner we are doing at present. With our three-pronged growth strategy covering television, films and digital B2C, we are looking at becoming a diversified content originator and a new-age media distribution company.

Through an experienced management and strong content creating capabilities, we continue to create consistent value for our shareholders. Our scale of operations, engaging content and innovative business strategy makes us stand out. We are building customised marketing forums and lining up innovative marketing initiatives to draw audiences and increase viewership.

In the backdrop of a more realistic global and confident Indian economy, I am sure that we have the projects and momentum for an exceptional future. When I review our journey so far and look at the road ahead, our achievements and milestones seem just the preparation for the next chapter in our story.

Once again, I take this opportunity to thank all our stakeholders for their continued support. We remain committed to maintain our leadership position in India's Media & Entertainment industry and further capitalise on growth opportunities coming our way.

Warm regards,

Jeetendra Kapoor
Chairman

Managing Director's Message

Our Valued Shareholders,

FY2016 was another successful and eventful year for the Company. We grew our businesses, increased our profitability and took forward some key strategic initiatives. Our business units delivered solid growth and improved their profits. This enabled us to improve our competitiveness and create value for our shareholders.

Mr. Sameer Nair, who joined us as the Group CEO, has ushered in several changes within the organisation. His entry in the Balaji Group has brought about a sea-change in reporting and responsibility. Processes have become more streamlined internally, resulting in better accountability within teams. He is a motivator and a good team leader accessible to everyone.

Our Financial Performance

FY2016 was a good year as our TV business continued to do exceptionally well. We achieved our targeted financial performance in this vertical, successfully implemented our strategy and laid a strong foundation for the future. Our Revenues in the TV business grew 20% YoY at ₹ 2,473.27 million during the year under review. Our reported EBITDA grew 173% YoY at ₹ 347.85 million, while Profit After Tax grew 256% at ₹ 436.74 million. This is the result of a consolidation strategy and the tweaking of our business model we attempted three years ago.

Our cost efficiency measures and keeping costs under control helped us improve our margins. The results are already visible in the balance sheet. As compared to 962 hours of commissioned programming in FY2015, the year under review of FY2016 witnessed 1002 hours. New launches and healthy realisations from commissioned programming (₹ 2.47 million/hour in FY2016, compared to ₹ 2.09 million/hour in FY2015) improved profitability and enabled stable growth. Moving ahead, we will continue to focus on cost management to further enhance margins.

Our Movies business was marked by only a single release during the year. However, going forward, we expect the movies vertical to also post consistent revenues and profitability. We ramped up this business and made it better planned to emerge as one of the top five movie studios in India. The pipeline for FY2017 is strong and the movies are slated to be released in a more sequential

and organised manner, offering better visibility and consistent performance.

During the year, we raised ₹ 150 crore towards the setting up of our digital foray – ALT Digital. Some well-regarded investors have participated in this investment. We are very excited about the prospects of this business and are confident that it will deliver results soon. All in all, FY2016 was a year in which we took some bold decisions to milk our strength from the TV business to – firstly, re-pace the movies business and deliver consistent top and bottom line results for the future; and secondly, invest into the new-age digital distribution business that will drive the Company's future value.

Leveraging our Creative Strengths

With rich experience in entertainment and a proven ability in gauging the pulse of the masses, we continued to do varied shows across genres, often as we have done earlier, becoming the No. 1 on the respective channels. In fact, with a TRP rating of 5.5, our hugely popular weekend show Naagin improved viewership on Colors. We continue to leverage our creative strengths to provide TV content catering to the audience's tastes. Our other shows, the likes of Kunkum Bhagya, Kasam Tere Pyar Ki and Ye Hai Mohabbatein, among others, are also liked by the audiences as they cut across language barriers and geographies. Going forward, we are working towards providing a diverse offering across all GECs and bridging the gap between rural and urban consumers.

In the movies business, we spent FY2016 in introspection, solid planning and in renegotiating of deals. During the year, we passed through a learning curve and focused our energies on understanding the science behind the art of making movies. We leveraged our franchise value by exploring a sequel and releasing the adult comedy Kya Kool Hain Hum-3 in January 2016. We are beefing up our slate by planning to release at least one movie every quarter. In FY2017 so far, we released three movies – the biopic Azhar, Uda Punjab and the comic caper Great Grand Masti. Three more are lined up for release in the immediate future – A Flying Jatt, Super Singh and Half Girlfriend. For FY2017 and FY2018, we have a slate of 4-5 movies across diverse concepts, genres and budgets. Our aim is to emerge as one of the top 3 movie production houses in India, with a strategic thrust on sequels, and exploring different models of production.

Our Digital Foray

The internet in India is on the cusp of breakthrough growth with an audience of 319 million users and 100 million video consumers. Our new digital arm – ALT Digital – is an OTT SVOD (Over-The-Top Subscriber Video On-Demand) platform. With this, we aspire to be the Netflix equivalent of India. We are moving where the world is moving. We have identified our digital vertical to be a key driver of our business. We are creating original content for the platform, so it is not an aggregated, but original premium content play. We are creating urban and exclusive content in-house for the platform in English, Hindi and regional languages, driven by Balaji and possibility of co-production by other producers. With exclusive content and differentiated programming, ALT Digital is our route to tap the Indian audiences both in India and the vast Indian diaspora spread globally.

New Leadership

We are delighted to have a new CEO Mr. Aman Gill for Balaji Motion Pictures Limited (BMPL). He has creditable skills and is known for his ability to balance creativity with commerce. His responsibilities span film development – creative, production, marketing, distribution and syndication of films with various studios. I am confident that he will further the formidable brand BMPL has built over the years and take it to greater heights.

Making concrete strategies to ensure we leverage our leadership and focus on a larger stage and grow our relevance. We are creating capabilities, infrastructure, content and platforms aligned to emerging consumer

preferences and audience behaviour, aligning our strategic priorities and tangible goals that will place us in a different orbit. Actions are geared towards not just thinking of what is, but thinking what can be. We originate content that is relevant to diverse audiences and available across multiple platforms. We are and continue to be astute content producers and innovators.

Moving Ahead

Our goals remain intact as we continue to unlock shareholders value. With storytelling our key forte, our whole focus is to monetise our platforms and take Balaji to the next level of growth. In addition to our steady sailing TV business, we have built a healthy slate to release 4-5 movies a year. In addition to this, we have organisationally and commercially prepared ourselves to create about 200-300 hours of original programming for our ALT Balaji channel. This may seem small initially, when compared to over 1,000 hours that we make for TV every year. However, in this case the content will be superior in quality. Exclusively available through ALT Balaji, we will also exclusively own the IP for all this new class of programming.

I would like to thank all Balaji employees for their dedication and contribution to our business performance.

I especially thank you, our shareholders, for your continued trust and support.

The idea behind ALT Digital is to build a direct-to-consumer model through the net. It is about drama and programming for the upmarket, urban audiences. Liberated and liberal content for liberated viewing, that's where ALT Digital figures in.

Joint Managing Director's Message

Dear Friends,

As one of India's pioneering media houses, Balaji Telefilms has always focused on content innovation. Our passion for entertainment continues to drive us to create exciting entertainment formats – spanning films, television and now for our digital audiences.

Our TV and Movies Businesses

Through our movies and TV shows, we aim to constantly reinvent ourselves and deliver absorbing and market-relevant content. Our projects in TV are also refreshingly original and a result of creative expression, aimed at enhancing viewer experience through fresh and varied content. Our compelling content, creative marketing and resource strength enabled us to extend ourselves as a mature and determined organisation in the dynamic space of media and entertainment.

In TV, more channels are getting launched and there is a concomitant increase in the number of slots for new shows. Revenue realisation will take time for these since it takes time for a show to settle down and produce the required realisation per hour. We will operate our current shows on a steady slate for a year and add more shows, as we go along. We continue to stick to our conviction towards providing quality entertainment avenues for viewers through new and innovative concepts that appeal to viewers in terms of its narrative. With changing industry dynamics, we are aiming to capitalise our capabilities in making high-concept fiction and non-fiction shows.

I am particularly upbeat with our new CEO for Balaji Motion Pictures Limited, Mr. Aman Gill, who joined us in December 2015. I look forward to working with him in taking movies business to new heights of commercial success and achievements.

ALT Digital—Our New Growth Driver

The advent of universal internet has fundamentally changed how audiences will eventually consume content. Our foray into the digital space is aligned to our strategic intent to tap into the growing digital video phenomenon. This is the place where we bring our unique story telling strengths to create compelling content and deliver it directly to audiences, who are always connected and seek

quality, original entertainment in new formats. The idea behind ALT Digital is to build a direct-to-consumer model through the net. It is about drama and programming for the upmarket, urban audiences. The Indian fiction scene is exploding with ideas and writers, but TV by its nature, limits the creative exploration possible. Liberated and liberal content for liberated viewing, that's where ALT Digital figures in.

The Regional Landscape

We are aiming for a more involved and profitable play into the regional content space. Through tie-ups with local partners, we aim to launch more shows in Bengali and South Indian languages. We are gradually moving into regional content by tying up with locally operating partners as our entry strategy. We are also looking at using Hindi content for regional channels. Our partnership established with Chhayabani, a Kolkata-based production house, to form Chhayabani Balaji Entertainment Private Limited, is an example of our concerted move to strengthen our regional offering.

Going Forward

We strongly believe that content creators who stay ahead of the curve and are most alive to challenges and opportunities are the ones that will reap the benefits, going forward. We recognise the power of a good idea. We understand that no amount of marketing effort can pull or sustain audiences, if the content is not right. Script is an essential part of all our movies and TV shows. For us, watching a TV show or film grow from a mere thought or an idea to being a successful one, will always be extremely fulfilling.

On behalf of the Board and the entire leadership team at Balaji, we thank all the shareholders for their support in our effort and commitment to be a part of our vision.

Best Wishes,

Ekta Kapoor

Joint Managing Director

Group CEO's Message

Dear Shareholders,

I feel extraordinarily privileged to work for this great company with such talented people. Our management team and our employees do outstanding work every single day, while dealing with an extreme number of complex business issues. The way our people and our Company are able to address our challenges, while continuing to grow our businesses, fills me with pride.

Year in Brief

Over the course of last year, our key vertical, the television business, maintained – and even strengthened – our leadership position and continued to gain market share, improve customer satisfaction and foster innovation. We continued to deliver on our many commitments – including expense discipline, controls and capital requirements. Our television business has seen considerable growth with a lot of new shows and newer projects. We had top-rated Hindi shows and the big success has been our show Naagin on Colors – the No 1 show in India during its run time. In a small way, it contributed to making Colors the No 1 channel in India. Our content strategy in TV will be to not only have daily shows, but have a mix of diversified shows, cutting across genres and formats.

Our Movies business has been slower this year with a single release, but we are quite bullish about the business and expect it to grow. A recalibration took place in the movies vertical, aimed at making the movies business better planned and a more predictable part of our business in terms of consistent revenues and profitability. We took our time to carefully build our movie pipeline and utilised the market opportunity provided by the market correction. Today, we have already started building up our pipeline for the years ahead FY2018 and FY2019 and attempt to produce 4-5 movies per year.

Betting Big on Digital

IP is the trigger for scale. After winning over film and TV viewers, we are breaking new barriers for value creation by going directly to consumers. A key highlight of the year was the setting up of our subsidiary ALT Digital Media Entertainment Limited for our digital platform – ALT Digital, a Subscription Driven Video On-Demand

service. With ALT Digital, we are gradually transforming ourselves from participating only in mass entertainment to also having a stake in on-demand entertainment through digital platforms.

What we aim to build is a genuine B2C brand – after having been a B2B business for so many years. We are hoping to get in early and build a complementary channel to our television business. ALT Digital will help us tap into a world of on-the-go entertainment that is slowly opening up in the country, as telecom companies and speedier broadband connections change the way people keep themselves engaged.

This is a super exciting business and heralds to capture great value as it holds traction in years to come. As a creative production house, we felt the time was right to foray into digital, given the way the space has evolved over the past couple of years. More and more people are consuming content on the mobile and other smart devices, and gradually, people have started paying online. Digital is the way forward and the whole space is growing very rapidly. By FY2020, we hope to have our revenues split equally between TV, movies and digital. By 2025, I expect ALT Digital to be bigger than both our TV and Movies businesses.

We raised funds for the digital vertical through a preferential allotment. With this, we are well resourced to see the new vertical not only getting through, but we aim to be a market leader in this space too. We are currently focusing on getting our content strategy right, building the team and defining the right platform to launch the channel during FY2017.

It's all about Networking

We are leveraging our competitive strengths of enduring relationships with leading talent, diversified revenue streams and strategies to mitigate risks and promote cash flow generation, experienced management, delivering strong content and creating consistent value for shareholders. Our scale of operations, financial capabilities, engaging content and innovative business strategy makes us stand out.

As a creative production house, we felt the time was right to foray into digital, given the way the way the space has evolved over the past couple of years. More and more people are consuming content on the mobile and other smart devices, and gradually, people have started paying online.

We are building customised marketing forums and lining up innovative marketing initiatives to draw audiences and increase viewership. We are creating capabilities, infrastructure, content and platforms aligned to emerging consumer preferences and audience behaviour, aligning our strategic priorities and tangible goals that will place us in a different orbit. Actions are geared towards not just thinking of what is, but thinking what can be.

Fighting Piracy

An unpleasant episode was the online leak of our recent movies Uda Punjab and Great Grand Masti on multiple online platforms, ahead of their scheduled release. We are fighting online piracy hard and combatting the distribution of pirated video content and taking adequate measures to block the resource on the Internet.

Moving Ahead

Balaji is very well placed. It knows the pulse of the audience. As we establish the digital platform, it will create value by redefining the terms of our intellectual property and exploiting new avenues of monetisation. Going on our own in digital will give us complete creative and pricing freedom.

Everyone at Balaji is fully committed to our strategy and targets, and we will continue to implement our strategy and deliver excellent performance.

Thanking You,

Sameer Nair

Management Discussion & Analysis FY2015-16

The Indian economy remained resilient and grew by 7.6% in FY2016, making it the world's fastest growing economy among the large economies. This was higher than 7.2% economic growth recorded in FY2015, buoyed by improved agricultural performance and growth in consumption.

Economic OVERVIEW

GLOBAL ECONOMY

Calendar Year 2015 (CY2015) has been challenging and difficult year for the global economy. Global growth is said to pick up after a number of weak years (global economic activity remained subdued in CY2015). Global growth, estimated at 3.1% in CY2015, is projected to improve to 3.4% in CY2016 and 3.7% in CY2017. The pick-up in global activity is projected to be more gradual, especially in the emerging markets and the developing economies. In its semi-annual World Economic Outlook, the International Monetary Fund (IMF) stated that the world economy is facing the threat of a synchronised slowdown and mounting risks including another bout of financial market turmoil, and a political backlash against globalisation.

Worldwide, demand remained weak and the recent volatility in financial markets highlighted an uncertain international outlook, especially in China. "The emerging economies are slowing down, apart from India which is "doing pretty well", Christine Lagarde, the chief of the International Monetary Fund stated. The pace of global GDP growth remained slow, driven by a collusion of multiple factors such as volatility and rebalancing in the Chinese economy. A drop in oil and other commodity prices, slowdown in emerging economies, and slow pick-up in major developed economies also contributed to the slow growth.

INDIAN ECONOMY

The Indian economy remained resilient and grew by 7.6% in FY2016, making it the world's fastest growing economy among the large economies, according to the data released by the Central Statistics Organisation (CSO) of India. This was higher than 7.2% economic growth recorded in FY2015, buoyed by improved agricultural performance and growth in consumption. The economy outgrew most major economies on the back of strong domestic demand, coupled with a drop in crude and commodity prices. The CSO had estimated the Indian economy to record a five-year high growth rate of 7.6% on the back of improved performance in manufacturing and farm sectors.

The International Monetary Fund (IMF) retained its growth forecast for India in FY2017 at 7.5%, largely driven by private consumption even as weak exports and sluggish credit growth continue to weigh on the economy. India's growth momentum is expected to be underpinned by private consumption, which has benefited from lower energy prices and higher real incomes. Robust reforms, push for Make in India and a better external environment indicate a double-digit growth trajectory.

India climbed 12 notches on the World Bank's Ease of Doing Business indicator and is a "haven of stability amid a turbulent global economy". The Government has taken several steps to improve the country's economic environment – including simplifying approval procedures, repealing obsolete laws, putting in place a non-adversarial tax regime and addressing the issue of subsidy leakage. Foreign investment inflow into the country increased by 39% in 2015.

Indian Economy – Growth Drivers

Strong macro-economic fundamentals, favourable business sentiments and a downward trend in interest rates are significant positives for the economy. According to the estimates of the Confederation of Indian Industry (CII), government infrastructure investments and increased investments from the private sector will boost GDP growth. India has benefited from lower oil prices and remains on a strong recovery path, being the fastest-growing large economy in the world. An incipient recovery of private

investment is expected to help broaden the recovery. Moreover, higher levels of public infrastructure investment and government measures to re-ignite investment projects should help crowd-in private investment.

An integrated set of initiatives – including Make In India, Start-Up India, Mudra Yojana and Skill India – will help create a large number of jobs. A series of reforms is being initiated to help convert job seekers into job creators. The Government has launched the Start-Up India campaign, which will deepen, expand and support the innovation ecosystem in the country.

Industry OVERVIEW

INDIAN M&E INDUSTRY

Calendar Year 2015 (CY2015) was a mixed bag for the Indian Media & Entertainment (M&E) industry. Coming off the heady days of CY2014, when election spending and renewed hope drove a significant level of media spend, CY2015 was a year of settling in, rolling up one's sleeves and getting down to task. The M&E sector grew by 12.8% from ₹ 1,026 billion in CY2014 to ₹ 1,157 billion in CY2015. A healthy advertising environment, with around 15% growth – propelled several parts of the industry to unprecedented growth. Television again performed very well, led by the General Entertainment Channels (GEC).

CY2015 saw several new channel launches and also witnessed the industry's adoption of a brand new ratings system – Broadcast Audience Research Council (BARC). Digitisation of cable continued with its implementation challenges, but with Phase III substantially completed, significant progress is being made. Addressability still remains a key challenge even after digitisation, but the industry is hopeful that these challenges, too, will get addressed in time. The cable industry awoke to the potential of broadband and the year saw several companies restructure and raise funds from private equity or through listings.

The Media & Entertainment (M&E) industry is set to grow at a CAGR of 14.3% to ₹ 2,260 billion by CY2020, according to the KPMG-FICCI Media and Entertainment industry report 2016, titled 'The Future: now streaming'. According to the report, the growth of the M&E industry will be led by advertising revenue, which is expected

to grow to ₹ 994 billion at a CAGR of 15.9%. Growth for television advertising is projected at a CAGR of 15% between CY2015 and CY2020, while print media is expected to grow at 8.6%, according to the report. With an advertising growth rate of 17%, CY2015 was a phenomenal year for television. Some Hindi General Entertainment Channels may even have outperformed the industry with a growth rate of more than 20%. Although TV saw a spike in advertising, subscription revenue for the medium remained muted. Digital advertising, which continued its strong run with 38.2% growth over CY2014 – as a mounting Internet user base and data usage were supplemented by increased spend allocation by marketers – is likely to scale up to ₹ 255 billion by CY2020 and contribute to 25.7% of total advertising revenues, according to the FICCI Report.

UNDERLYING GROWTH DRIVERS FOR THE M&E INDUSTRY

a. Growing prominence of e-commerce advertising

The e-commerce segment continued to aggressively chase market share by continuing to spend on customer acquisition. E-commerce advertising spends initially focused on digital platforms, but over the last couple of years, there has been significant increase in advertising spends across Television, Print and Radio.

However, most of these spends have been largely concentrated on national networks and have not percolated down to regional markets. It is expected that e-commerce will continue to be an active advertiser across platforms with spends being concentrated among the large e-commerce players and increasing focus on regional markets.

b. Emerging shift in films in favour of Hollywood and regional content

The Films segment grew by 9.3% during CY2015, primarily driven by strong performance by Hollywood

and Regional content that offset another weak year for Bollywood. Regional content, on the other hand, has seen growing budgets, increased distribution and marketing spend allowing wider audiences to access the content.

c. Over The Top (OTT) - Building for the Future

There is a significant level of interest in building out OTT platforms. However, their viability in the short term remains a concern. This is owing to the bandwidth constraints, high cost of customer acquisition, dependence on advertisement-led models and high cost of data access.

d. Sports is looking beyond cricket for growth

Cricket continues to be the primary driver of viewership, with marquee properties such as IPL and World Cup, witnessing growth in both ad rates and sponsorships. However, the last couple of years have seen the launch of various sporting leagues across varied sports such as Kabaddi, Football and Tennis among others. Kabaddi in particular has seen strong audience and brand response prompting the league owners to make the tournament a bi-annual affair to leverage on its popularity. (Source: KPMG-FICCI Indian Media and Entertainment Industry Report 2016)

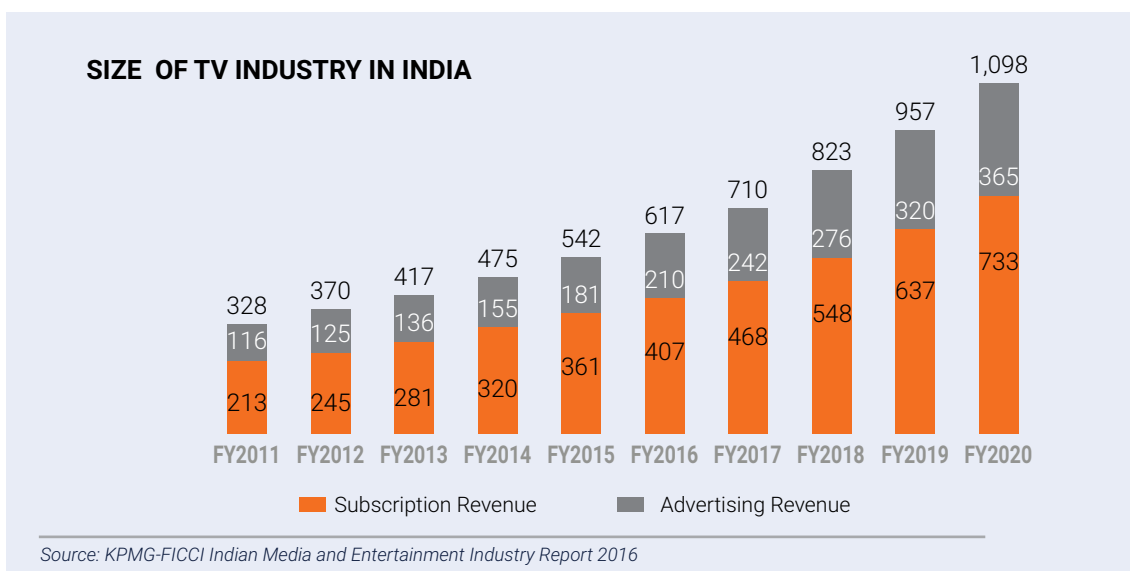

INDIAN TELEVISION INDUSTRY

Television registered a 14.2% growth in CY2015 at ₹ 542 billion, led by a strong growth in advertising at 17% on the back of increased e-commerce spends and renewed spending by sectors such as Auto, Telecom and Mobile handsets, among others. Subscription revenue growth at 12.8% was slower due to delays in Phase 3 digitisation and further delays in availing the on-ground benefits of Phase 1 and 2. Television is expected to grow at a CAGR of 15.1% in the coming years, as advertising revenues will continue to show robust growth. However, delays in digitisation would mean that subscription growth would be slower than anticipated earlier.

The television industry is expected to grow at a CAGR of 15% to reach ₹ 1,098 billion by CY2020. Subscription revenue is estimated to grow at a CAGR of 15% on account of increased monetisation, while advertising revenue growth is also estimated to remain strong, growing at a CAGR of 15%. The number of TV households in India increased to 175 million in CY2015, implying a penetration of 62%. The number of Cable & Satellite (C&S) subscribers is estimated to have reached 160 million. Excluding DD Free Dish, the number of paid C&S subscribers was estimated at 145 million in CY2015, implying a paid C&S penetration of 83%. TV households are projected to increase to 200 million by 2020, with the paid C&S subscriber base expected to grow to 174 million by CY2020, representing 87% of the TV households.

Action hero film franchises, along with wide distribution and marketing, helped Hollywood in continuing its double-digit growth trajectory in India, clearly demonstrating the audience's appetite for differentiated content.

INDIAN MOVIES INDUSTRY

During CY2015, the movies industry grew at 9.3% although the underlying fundamentals were mixed, with Hollywood and regional releases also contributing to growth. Films are expected to grow at an annual rate of 10.5% in the near term. Lack of screen density is a key constraint to sustained growth, especially for Bollywood content. While exhibitors recorded a significant growth in regional and Hollywood film collections, collection for Hindi films (Bollywood) was almost flat compared to previous years. On the other hand, strong regional content seemed to have gained acceptance even among the non-native language speaking audience, thereby improving the share of regional films in the overall revenue pie. Action hero film franchises, along with wide distribution and marketing, helped Hollywood in continuing its double-digit growth trajectory in India, clearly demonstrating the audience's appetite for differentiated content. Key Trends in The Movies Industry

a. Rationalising Spends

Cost consciousness led to a steady shift in the business model. Actors are increasingly accepting a revenue share instead of front-loading the entire fee, thereby enabling risk-sharing across the value chain. Studios are also experimenting with fresh talent, which comes onboard for a lower fee. On the marketing front, there have been active measures to curtail the marketing spend by rationalising spending on print media, reducing the number of promotional tours and shortening the duration of the campaigns.

b. Increasing Focus on Content Development

The year witnessed many films with a strong storyline (with or without A-listed actors) doing well. Few films having A-listed actors crashed at the box office, further strengthening the hypothesis that a good script is indispensable for a film's success. Consequentially, players have initiated several programmes to consciously focus on content development.

Some of the key initiatives are:

- ▶ Shift from acquisition of projects to in-house content development
- ▶ International alliances and mentoring for content development
- ▶ Strategic alliances with domestic players across the value chain
- ▶ Reduced dependence on star talent
- ▶ Development of ancillary revenue streams

c. Optimising Marketing Costs

Many film production houses are taking steps to rationalise their marketing spends, such as:

- ▶ Shortening the duration of promotion campaigns
- ▶ Lower investment in print media
- ▶ Increasing focus on Social Media/Digital Marketing
- ▶ Integrated brand-tie ups to unlock synergies
- ▶ Use of newer platforms

Opportunities for the Indian Movies Industry

- ▶ Improving domestic reach by increasing number of screens
- ▶ Retrofitting - Converting single screens to 2/3 screen multiplexes
- ▶ Single window clearance/simpler laws to start and exit the exhibition business

DIGITISATION OF MEDIA

The on-demand audio and video content services are at the cusp of an inflection point in India. An entire ecosystem around such services has emerged including content providers, aggregators, distribution channels, technology platforms, advertising platforms, payment channels and marketing channels. While the current monetised value of the platform is small, the industry is investing in directing the viewing habits of consumers to legal platforms, away from illegal platforms. Digital revenues constitute less than 5% of the overall domestic theatricals market, but are observing double digit growth. Digital advertising will continue to grow at a high CAGR of 33.5% with a shift towards mobile and video advertising on the back of increase in mobile users and improved digital infrastructure, according to the KPMG-FICCI Indian Media and Entertainment Industry Report 2016. By CY2020, it is expected that digital advertising will be ₹ 255 billion and will contribute 25.7% of total advertising.

a. Video On Demand (VOD) Platforms displacing Cable & Satellite

CY2015 was witness to the broadcast windows shifting for the first time. Eros International, which adopted a “digital first” strategy for its growth, started windowing premieres as part of its marketing initiatives for its VOD platform – Eros Now. It released ‘Tanu Weds Manu Returns’ on its VOD platform, much before its television premiere. A couple of its other films – ‘Badlapur’, ‘NH10’, ‘Shamitabh’, and ‘Happy Ending’ also premiered on the Eros Now platform before their satellite premiere.

b. Entry of Subscription-based Video On Demand (SVOD)-only players in Over The Top (OTT) Films Landscape

The Indian OTT landscape was dominated by the advertising-based, pay per view and freemium models. However, the entry of Netflix, which follows a subscription-only model, into the Indian market has added a new dimension. Netflix has been launched at a higher price with three packages – ₹ 500 (SD, one device), ₹ 650 (HD viewing, two devices) and ₹ 800 (UHD, four devices), targeting the high-end consumers. This is expected to segment the digital market and make way for the other SVOD players as well. A few other players such as HOOQ, Hungama Play, YuppTV have also launched subscription-based services.

With the entry of newer players in CY2015, there are our 12 major OTT players in the films space now - Hotstar, Spuul, Netflix, Muvizz, HOOQ, Eros Now, VOOT, Box TV, Sony LIV, YuppTV, Ditto TV, Ogle and Hungama Play, among others. While these players are expected to increase their investments, few more new arrivals are also expected soon - Amazon Prime, and "ALT Balaji" from Balaji Telefilms. As more players are acquiring content in India and globally, the syndication revenues for film libraries are expected to increase.

INDUSTRY OUTLOOK

The Indian Media & Entertainment industry is on an impressive growth path. The revenue from advertising is expected to grow at a CAGR of 13% and will exceed ₹ 81,600 crore (US\$ 12.29 billion) by CY2019 from ₹ 41,400 crore (US\$ 6.24 billion) in CY2014. Internet access has surpassed the print segment as the second-largest segment contributing to the overall pie of the Media & Entertainment industry revenues. Television and print are expected to remain the largest contributors to the advertising pie in 2018 as well. Internet advertising will emerge as the third-largest segment, with a share of about 16% in the total Media & Entertainment advertising pie. The film segment which contributed ₹ 12,640 crore (US\$ 1.90 billion) in CY2014 is projected to grow steadily at a CAGR of 10% on the back of higher domestic and overseas box-office collections as well as cable and satellite rights.

Digital advertising is expected to lead the CAGR with 30.2%, followed by radio with 18.1%. Animation and VFX, and television are expected to register a CAGR of 16.3% and 15.5% respectively, followed by growth rates of gaming (14.3%), music (14.0%), films (10%) and OOH with 9.8% expected CAGR. Within TV, subscription revenues are expected to be three times more than

advertising revenues, by 2018. Growth in the regional reach of print and radio shall provide opportunities to further improve the advertisement revenue.

Moreover, technology has played an important role in changing the landscape of the Indian Media & Entertainment sector. The audience has become more experimental and open to new concepts, platforms and other sources of entertainment. The industry is inching closer towards digital as a potential revenue stream, which can disrupt the industry and alter the outlook. The industry should be able to leverage and monetise it aptly. Though this will present significant challenges to existing business models, there are also significant opportunities which can far outweigh the risks. However, to leverage these opportunities, the industry needs to invest for the future and be willing to look at the changes required in mindset and approach.

Company OVERVIEW

OUR TELEVISION BUSINESS

Television programming will continue to remain our staple source of value creation. We've been widely credited for successfully assessing our audiences' tastes in the most relevant manner. We have captured the pulse of new-age watchers and live up to their viewing preferences. With rich experience in entertainment and a proven ability in gauging the pulse of masses, we want to enhance our revenue generation and reiterate our market leadership in the TV industry. Television programming continues to be our key area of focus. We are venturing into new serials under the Hindi GEC segment and the year ahead will see a bunch of new TV shows targeted at capturing the sensibilities of different audiences on the GEC and non-GEC segment.

Creating a Wide Range of TV Programming

We have a strong track record of hit shows in Hindi. During the year, we tackled diverse genres – a reality show, created IP (through Box Cricket League) and also focused on televised events to create intellectual property. We aim to have a robust slate of 7-8 running shows at any given point in time. Some of our popular television shows aired during the year include Naagin, Jodha Akbar, Pavitra Bandhan Do Dilo Ka, Kumkum Bhagya, Ye Hai Mohabbatein, Meri Aashiqui Tum Se Hi and Kalash - Ek Vishwaas. With a past track record and a string of hit shows in Hindi and Regional television, we upped our production value and made a winning proposition on the small screen. Naagin emerged as the No 1 show of the year on Colors. With 62 episodes, it created a niche and popular slot for short-format series on weekend TV, with catchy elements such as characterisation, scripting, visual appeal and high-end technology. The fictional show, which went off air in June 2016, has been replaced with our thriller/horror show Kavach - Kaali Shaktiyon Se.

Exploring New Genres

In addition to thriller/horror, we forayed into the comedy genre through our upcoming show "Mazaak Mazaak Mein" on Life OK, co-produced with Violet Pictures. The non-fiction reality comedy show, on the lines of the Great Indian Laughter Challenge, will have five teams competing with each other. We are working towards expanding the slate by adding shows through the co-production model, which helps leverage economies of scale and attain cost efficiency. There are two other shows planned on Star Plus – a daily fiction show (scheduled for launch in September 2016) and a historical show (scheduled for launch in October 2016). A horror show is also on the cards for Zee Telefilms.

Moving Ahead

Having established ourselves well in the TV space, we constantly aim to deliver stable and sustainable growth by scaling higher and adding to the bottom line. We have an exciting and robust pipeline of shows to be aired in FY2017 across channels. With changing industry dynamics, we are aiming to capitalise our capabilities in making high-concept fiction and non-fiction shows. We are looking at expanding our regional shows in line with our business strategy. Having forayed into Bengali TV shows through our tie-up with Chhayabani Entertainment Private Limited, we are looking to add more shows on this platform.

OUR OTHER GROWTH PILLARS IN TV BUSINESS

Our business strategy to set up newer ventures in the TV business through collaborative deals with strategic partners paid off successfully during the year. Through the three growth pillars, we continued to leverage our creative strengths, captivate audiences and make programming more relevant through short-format shows, high concept and non-fiction shows.

Chhayabani Balaji Entertainment Private Limited

We always believe that growth is collaborative in a super-dynamic industry. Our subsidiary Chhayabani Balaji Entertainment Private Limited (CBEPL), in partnership with Kolkata-based Chhayabani Private Limited, promoted the best of creative talent by exploring new formats of television content.

The subsidiary leverages Balaji's competitive strengths to create exciting entertainment across the media and Chhayabani's glorious heritage of producing extremely notable films in Bengal, and therefore, the synergies are extremely strong. This collaboration brings together two different media houses, with distinctive strengths to create exciting content, while also attracting high-quality talent. Chhayabani continues to be the preferred partner for Balaji, given its cinematic excellence and passion to produce quality entertainment products. The subsidiary delivered two TV shows during the year – a musical show Phire Asher Gaan, a non-fiction show for Star Bangla; and Sohagi Sindur, a Bengali fiction daily on Colors Bangla. We are collaborating with Zee Bangla for a daily fiction programming with travel love stories. We moved a step ahead and are creating a 13-episode Bengali web-series for Balaji's upcoming digital channel ALT. We are open to a programming mix of diverge genres, new concepts and innovative formats including daily soaps, short format series, reality shows or weekend shows. We are also looking at leveraging our content in Hindi in the regional space and strengthening our regional offering.

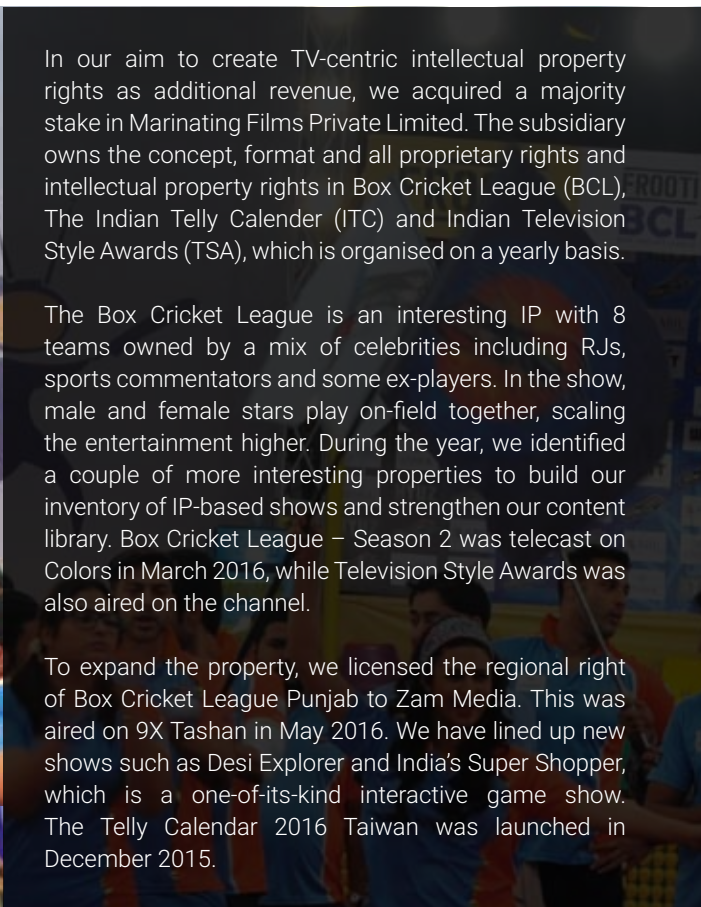

Marinating Films

Private Limited

In our aim to create TV-centric intellectual property rights as additional revenue, we acquired a majority stake in Marinating Films Private Limited. The subsidiary owns the concept, format and all proprietary rights and intellectual property rights in Box Cricket League (BCL), The Indian Telly Calender (ITC) and Indian Television Style Awards (TSA), which is organised on a yearly basis.

The Box Cricket League is an interesting IP with 8 teams owned by a mix of celebrities including RJs, sports commentators and some ex-players. In the show, male and female stars play on-field together, scaling the entertainment higher. During the year, we identified a couple of more interesting properties to build our inventory of IP-based shows and strengthen our content library. Box Cricket League – Season 2 was telecast on Colors in March 2016, while Television Style Awards was also aired on the channel.

To expand the property, we licensed the regional right of Box Cricket League Punjab to Zam Media. This was aired on 9X Tashan in May 2016. We have lined up new shows such as Desi Explorer and India's Super Shopper, which is a one-of-its-kind interactive game show. The Telly Calendar 2016 Taiwan was launched in December 2015.

Event Media LLP

Event Media LLP, a Limited Liability Partnership (LLP) between Balaji Telefilms Limited (BTL) and Select Media Holdings Private Limited, is a sunrise venture which enables BTL to make a foray into the allied segment of event management. It facilitates BTL in creating new IPs and monetising a growing market.

Event Media LLP aspires to create new intellectual property or value addition through Films & TV Awards, promotional events and other such events related to the entertainment industry. BTL and Event Media LLP have produced Star Box Office India Awards. In addition to this, it produced and broadcasted special shows on Valentine's Day and Mother's Day. Several other event ideas are being negotiated with leading General Entertainment Channels (GECs).

Bolt Media Limited (BOLT)

BOLT Media Limited is a 100% subsidiary of Balaji Telefilms Limited. It has established itself in the market for its quality programming and created a niche in a competitive environment. In a span of three years of its operations, it worked on a couple of TV shows which were well-appreciated by the audiences. It is looking at second season of some of the shows. Two TV shows created earlier were aired by broadcasters on EPIC channel. One of these was a 10-series epic documentary Rakht, while Dharma Kshetra was a 26-series neo-mythological courtroom drama. Besides short-format shows, the subsidiary also created a TV series aimed at youth-based entertainment. It also produces TV commercials and web-based advertisements for several corporates. Its earlier TV shows – Ye Jawaani Tara Riri, a 78-part series for a bi-weekly show on Channel V, and Love by Chance, an episodic romcom on Bindaas TV, have been well received by the audiences.

Among its other key achievements over the years, it created a special 100-part web series “Kelloggs Wale Guptajiki Family”. Aired in March 2015, the show garnered rave reviews hitting 5 million views in a month. The show displayed recipes where Kelloggs was used as a key ingredient. It also created a two-part documentary series for the National Geographic channel based on the 1990s. Besides archival footage on the 1990s, eminent personalities such as P. Chidambaram, Ram Gopal Verma, Rajdeep Sardesai, Diya Mirza, Pankaj Kapoor, Shekhar Suman, Uday Shankar, among others, provided a retrospective landmark, social and political view on the said decade.

OUR MOVIES BUSINESS

Our Movies slate has been well-architected with a combination of modest budget, high-concept movies as well as high-profile big star-cast films. We have achieved the right balance of cost, creativity and profitability in production of movies. With creative ingenuity of spotting powerful content, we aim to make our Movies business a powerhouse, given our capability to generate good content. We are geared to scale higher and graduate to the next level by optimising our creative strengths.

By leveraging the Balaji Motion Pictures and ALT Entertainment banners, and a unique combination of creative abilities of Ms. Ekta Kapoor and commercial vision of Mrs. Shobha Kapoor, we aim to make varied genres of movies. We are in the process of building franchises, creating characters, focusing on our genre potential and have a strategic thrust on sequels. We released Kya Kya Kool Hain Hum-3, Azhar, Uda Punjab and Great Grand Masti since the last annual report. A Flying Jatt, Half Girlfriend and Super Singh are slated to release in CY2017.

Continued Focus on Cost Efficiency

Cost rationalisation and maintaining economies of scale continues to be our key mantra at BMPL. Our efforts are focused on cost optimisation as well as smart and effective cost analysis. Our robust pipeline of movies ensures the overhead costs are amortised into 4-5 projects. We are working towards releasing at least one movie per quarter to stabilise our top line and turn to profit. We aim at reducing production costs to an optimum level, maximising use of existing sets and integrating with co-producers.

Optimising the Non-Theatre Business

We moved to the next level of building the movies business by clocking pre-sales in several innovative and structured packaging deals. Our focus on increasing non-theatre revenues through pre-sales of rights, prior to theatre sales, continues unabated. Profit sharing models with directors and actors helps us to de-risk our revenues and increase profits. To optimise the risk-return trade-off, we pre-sell distribution and satellite subscription rights of movies. We constantly aim to pre-license competitive deals for cable, satellite licensing and music rights and assure returns. In a game-changing and pioneering deal, we pre-sold non-theatre rights of our forthcoming movie Half Girlfriend before

we even started the movie shoot. In a packaged deal with Zee Group, we sold the audio, overseas and satellite rights of A Flying Jatt and Half Girlfriend. With the digital space growing exponentially, we are constantly tapping the digital space – Netflix, Amazon, Hungama, ViewClip and Spuul – to optimise our movie content and earn incremental revenues.

Moving Forward

Our movies business is projected to provide a precipitous upside, given our projects in the pipeline. We have a robust slate of movies in various stages of production. Going forward, we aim to build our film slate more rapidly and build on our string of successes. To achieve this, we are working towards a more diversified slate of small, medium and big-budget films catering to different genres. Besides our own production, we will continue to leverage our relationships in the industry with leading producers and directors.

REVOLUTIONISING THE *Art of Marketing* OUR MOVIES

We consistently deliver value through our distribution and marketing capabilities and maintaining a leadership position in the TV & Movies space. One of the main reasons why our movies attain box-office success is that they are sold effectively to the audiences. We continue to be in a good space in the movies business by making use of the right marketing, branding and distribution power. We continue to tap innovative and unique marketing strategies for effective monetisation of our movie assets.

Starting up to a few months before the release of a movie, we start an all-out publicity blitz by running trailers and internet marketing campaigns in order to create perceptions and build a relationship with the audience. The trailers are meticulously edited and audience-tested to give them a taste of the upcoming release, while leaving them wanting for more. We also create valuable internet experiences to source and exponentially grow our audience. We create and outline a content strategy that incorporates audio, video and text, based on the movie, story and genre.

A PEEK INTO SOME OF OUR *Key Marketing Strategies:*

Kya Kool Hain Hum-3:

While the third installment of this specific franchise was being released after a 3-and-a-half-year hiatus, we gave the genre a massive comeback. From announcing the advent of a new genre, to using the digital medium effectively, we further innovated the existing reality show platform - 'Bigg Boss'. From grabbing eyeballs to shocking people, the genre made a comeback and the campaign resulted in the film opening to a whopping number, against stiff competition.

Azhar:

Azhar was announced a year prior to its release, on the IPL finale, by means of a controversial, hard-hitting teaser which created much anticipation and excitement around the subject well in advance. The release date, too, was strategically announced to coincide with one of the biggest cricket spectacles in the country - the IPL. Instead of a biography, we projected it as the 'life & times', of one of India's most successful captains. We widened the film's appeal by targeting cricket-lovers and cine-goers alike. A large part of the campaign was around the references to 'real cricketers/models'.

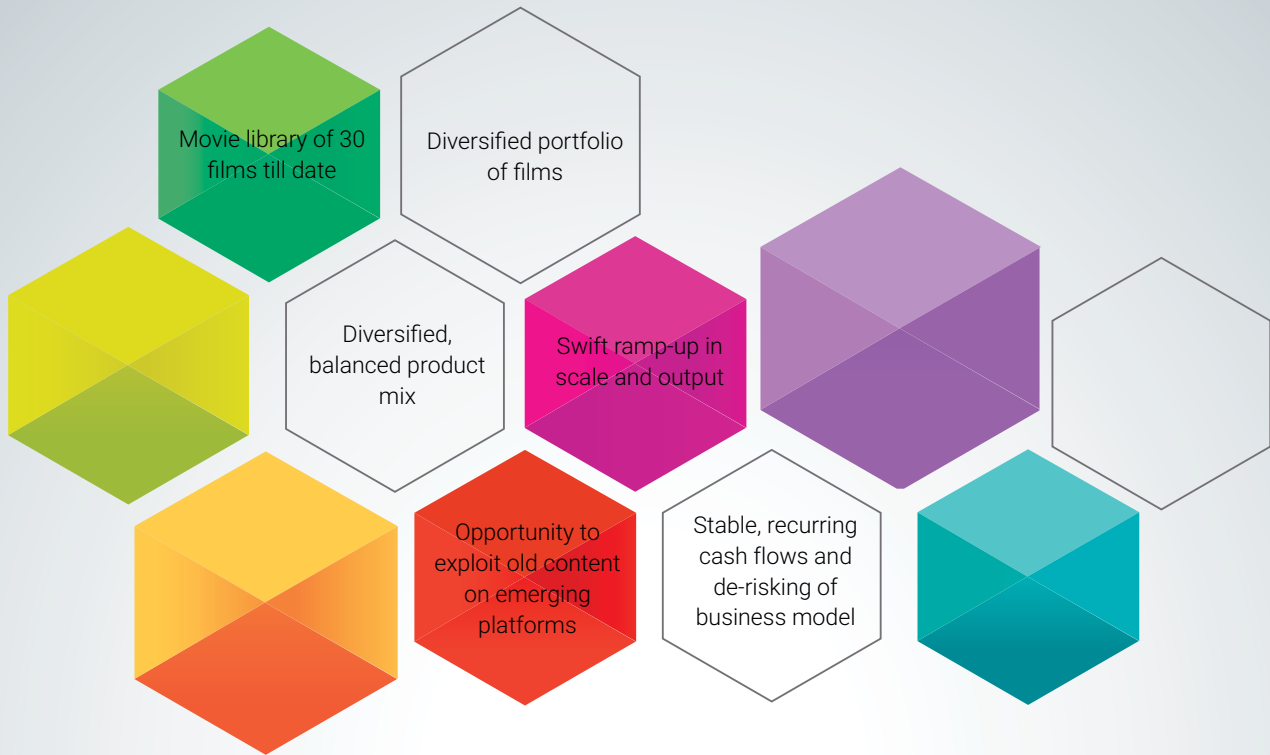

Udta Punjab:

With a stellar cast and an edgy product, we proclaimed the film as 'The Cult film for the Youth', positioning it as a new-age multi-starrer with a strong message. The catchy tagline - 'Drugs Di Maa Di', became a slogan for the youth. We pushed the plot of 4 lives - one connection = Udta Punjab. We leveraged the movie songs by showcasing them at locations that the TG relate to and find 'cool'. We tied up with rock cafes to propel the 'rockstar' appeal of the film.

ALT DIGITAL MEDIA ENTERTAINMENT LIMITED

Our Digital BUSINESS

Adding our third pillar of growth, we incorporated our wholly-owned subsidiary ALT Digital Media Entertainment Limited (ALT Digital), a truly global video streaming platform that will allow users to watch high quality content on screens across devices. ALT Digital will be the creator of original, made-for-the-web content. Through the digital vertical, we aim to create IP ownership and exploit new avenues of monetisation. We are working towards building a strong and valuable B2C brand that will take Balaji to its next level of growth.

CATERING TO A GLOBAL AUDIENCE

The Internet in India is at the cusp of big things – 319 million users and 100 million video consumers, according to KPMG-FICCI's Indian Media & Entertainment Industry Report 2016. Improvement in mobile broadband infrastructure, gradual reduction in the cost of internet and increase in smartphone screen sizes are driving consumers to shift their viewer preferences, according to the KPMG-FICCI Report "The Future: Now Streaming".

Watching TV and other content on laptops and smartphones based on individual choices has been a key trigger for increasing adoption and usage of OTT services. The OTT video services market in India is primarily driven by changing preferences of viewers towards watching content as per their convenience and individual choices.

AIMING AT CONSISTENT CONSUMER INTERFACE

With the shift to digital happening, we made a strategic foray into B2C digital content business segment during the year. With digital being the future, we are scaling higher by building a direct-to-consumer model through the internet. We floated our subsidiary, ALT Digital Media Entertainment Limited, to handle the digital content business and churn our original shows for web and mobile users. ALT Digital will effectively be well placed to benefit from the impending exponential growth.

The paid Video-on-Demand service will be our key market differentiator aimed at bringing about a cultural shift in how video is consumed. An amount of ₹ 150 crore has been raised through a preferential allotment by Balaji Telefilms Limited exclusively for ALT Digital. Our OTT video platform aims to tap into the rising demand, with more number of people buying smartphones and accessing the internet. Our motive is to capitalise the Balaji legacy and its unmatched content creating abilities in order to leverage the digital space. ALT Digital will operate predominantly on the Subscriber Video on Demand (SVOD) model, which is a pay per view model (followed by the likes of Netflix). Our motive behind the new vertical is to capitalise on the high-potential digital space in India and monetise the incredible potential of original, premium, on-demand entertainment.

BUILDING A B2C BRAND

Slated for launch during FY2016-17, ALT Digital will be Balaji's first large-scale consumer facing brand. It will enable Balaji to step into the consumer business – into the futuristic digital space by leveraging its core creative expertise. Through ALT Digital, we aim to build a strong and valuable B2C brand. Our aim is to take Balaji to its next level of growth by owning all the IP value for the programming we create. Our motive is to create value for the Group by redefining the terms of Intellectual Property (IP) ownership and exploiting new avenues of monetisation.

The platform will be a tech play that will enable Balaji to cater to the digital content consumer and creatively expand from what we specialise in. It will create differentiated, original digital content for 32 different interfaces spanning mobiles, computers, laptops, tablets, smartphones, game stations, or use an HDMI cable to mirror the high resolution content on Internet-ready TV sets. The content will be available across 9 different speed profiles. We have set up a strong team of highly talented professionals for the digital vertical. The move reflects the Group's strategic intent to expand our entertainment expertise by creating enjoyable and engaging content for a universal audience – those in India and overseas.

DEVELOPING ORIGINAL, OUT-OF-THE-BOX CONTENT

With the Video on Demand market in India being at the cusp of a take-off, it will present all-new original, exclusive and fresh content across genres – available only on ALT Digital – targeted towards urban Indians and Indian Diaspora. With 250 hours of original programming and 32 series for the upmarket and urban audiences, we aim to have a consistent consumer interface. The content will be available on subscription-based and premium advertisement supported models aimed towards domestic and global Indian audiences. In addition to developing our own platform, we are also in advanced discussions to seek synergistic associations and partnerships with leading Technology and Video Distribution platforms.

The content will be initially created in English and Hindi. Later, we plan to add regional content too (Tamil, Bengali and Telugu) to be able to cater to a wider spectrum of the audience. The digital platform will have a multiple genre play – thriller, comedy, dramatic love stories, kids programming, and will tackle subjects not seen on television. In addition to creating content in-house across age groups, we are signing up with creative outfits, including online video producers, for co-branded content to be broadcast on ALT Digital. The app is Beta ready and also enables the consumer to download content on the device.

the e-commerce space. It has struck an exclusive deal with e-commerce giant Snap Deal on a license basis. A natural progression for the brand is to explore the retail route. We will continue to leverage our creative abilities and produce well-appreciated content, while keeping an eye on maintaining efficient cost structures. With a fresh and young team equipped with diverse capabilities, we are evaluating our opportunities in the distant space. We want to expand our wings in three verticals – TV, Movies and Digital – with an ultimate aim on Return on Investment (RoI).

MANAGEMENT OUTLOOK

Our larger aim is to emerge as the one of the largest and most influential entertainment providers in TV, Movies and the Digital platform. Towards this aim, we are growing our stature further, sustaining industry leadership in TV; reinforcing our leadership position in Movies; and building new platforms for growth in the Digital space - thereby creating a borderless and seamless world of entertainment.

To achieve this, we will continue to deliver high quality content covering the entire value chain. We will leverage our expertise across facets, target the audiences and make a digitally connected society. We will strengthen our existing platforms and building new ones, gauging viewer preferences. We will continue to align our content offerings, making a borderless and seamless world of entertainment, targeting growth in viewership and content consumption.

Value creation for our shareholders is our perennial motto. Moving a step ahead, we arranged a visit of our shareholders to the Klick Nixon Studio at Chandivali, Mumbai during the year. Over 100 shareholders were taken around the sets of our TV shows.

We continue to make concrete strategies to ensure we leverage our leadership market position. We continue to create capabilities, infrastructure, content and platforms aligned to emerging consumer preferences and audience behaviour. We are aligning our strategic priorities and tangible goals that will place us in a different orbit. Actions are geared towards not just thinking of what is, but thinking what can be. We are content producers and innovators. We create content that is relevant to diverse audiences and available across multiple platforms.

Our Key Business Enablers for Future Growth:

- ▶ Creating newer show formats for television content
- ▶ Creating original and diverse show content to retain leadership
- ▶ Exploring opportunities across channels, languages
- ▶ Creating movies across budgets, leveraging our brand, scale and presence
- ▶ Building our marketing and distribution capabilities
- ▶ Creating a diverse movie slate to capture audiences across genres
- ▶ Leveraging opportunities in regional markets by expanding network
- ▶ Capitalising on growth opportunities in the SVOD and OTT space

Under Risk Management, our key achievement during the year has been the templatisation of contract agreements, which reduces the turnaround time and ensure the delivery is faster. With this, nearly 80% of the contracts are standardised.

RISK MANAGEMENT & INTERNAL CONTROLS

Being a content driven entity, we are strengthening our Intellectual Property to ensure cost optimisation at all levels. We have implemented the compliance tool by Ernst & Young (E&Y) to strengthen the compliance requirements at different levels. A key achievement has been the templatisation of contracting agreements, which reduces the turnaround time and ensure the delivery is faster. With this, nearly 80% of the contracts are standardised. Another move has been the reduced dependence on external lawyers, whereby all legal notices are replied by the internal team.

We continue to have a readily available database of our IP, such as scripts, dialogues, clips and other content from our movies. This will be leveraged to earn incremental revenues and improve profitability. We are also implementing the software to track litigations and monitor them easily. We are planning cloud-based software which will help us retain our rights by creating a script bank to streamline the process of script writing.

Our focus is to enhance operational efficiencies and optimum effectiveness at every level. Statutory and regulatory control and transparency of all financial

disclosures and the compliance tool is being well adhered to. An important thing that has been plaguing the film industry for long is video piracy. We are making repeated attempts to curb piracy as the threat to the future of films intensifies. Piracy of content produced is being handled with stricter controls and procedures. The Whistle Blower policy, Anti Sexual Harassment policy and the IT policy are being strictly followed, with internal committees being put in place for each of these. As a major initiative, we are streamlining our processes and automating the agreement process by putting in place a contract management process.

As part of an integrated system, we are creating a deck for the production activity for BMPL, putting forth all the rights on intellectual property (IP) for theatrical, digital and satellite rights. However, delays or cost overruns in movies can impact the completion, production and release of our films. In addition to this, the unorganised nature of the media & entertainment industry can impact our revenues, although industry corporatisation, better planning and execution can help us mitigate our risks.

We are driven by principles of empowerment as we believe in inculcating a winning attitude among our employees by encouraging learning, selfdevelopment and by building effective leadership. A well-structured career path is created for each employee within the organisation with a progression and succession plan made for each of them.

HUMAN RESOURCES

We have strong strategic planning and decision making skills achieved through a highly capable and committed leadership team that is geared to build the finest and most unique properties across India. Over the years, we have rapidly expanded our intellectual capacity to handle our diverse businesses, aimed at becoming one of the largest entertainment studios of India. From an HR perspective, our emphasis is always on attracting the right talent to help the organisation achieve its vision.

To accomplish our goals, we are always on the look-out for talented, creative, ambitious individuals, driven by a passion to excel. We hire some of the most talented and experienced individuals in their respective fields.

Being a performance driven company, we have introduced several performance-driven tools. We are driven by principles of empowerment as we believe in inculcating a winning attitude among our employees by encouraging learning, self-development and by building effective leadership. A well-structured career path is created for each employee within the organisation with a progression and succession plan made for each of them.

Rewards & Recognition

Our key aim is to help our employees realise their true potential. We also work towards recognising and rewarding each individual and team achievements. In addition to Performance Management System (PMS), we have a system of “On Spot Rewards” and quarterly performance. The requisite motivation is offered to the “High Flyers” in the form of meetings with the senior management. We endeavour to become market leaders by deploying the right talent and unleashing their innovative potential.

Our Tent Poles in HR

The three key tent poles from an HR perspective are – People, Processes and Culture – and we have aligned our business strategy based on these tent poles. Our prime focus areas are as follows: one, to rake in high performing employees through a structured recruitment process with effective learning & development and training programs; two, provide access points to employees; three, create employee engagement and wellness activities. An example of this is the “Balaji Cricket League”, a one-day event, which was organised internally on the lines of Box Cricket League to encourage interaction within different teams. Eight teams from different departments participated in the cricket game.

Our constant aim is to retain our employees by offering them a growth-filled environment and providing them with appropriate working conditions to enable them work effectively. We look for internal replacement in case of attrition by exploring “cross pollination” within teams. We keep the learning factor high by offering the employees stimulating work assignments, a great working environment and professional management.

RE: BALAJI TELEFILMS LIMITED

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

We have audited the internal financial controls over financial reporting of Balaji Telefilms Limited (the Company) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Inventory comprise of television serials which are at lower of cost and net realisable value. Cost is determined on the basis of average cost.

Revenue recognition

Revenue is recognized as and when the relevant episodes of the programmes (television serials) are telecast on broadcasting channels. Revenue (income) is recognized when no significant uncertainty as to its determination or realization exists.

Employee benefits

a) Post employment benefits and other long term benefits

i) Defined Contribution Plans:

The Company contributes towards Provident Fund and Family Pension Fund. Liability in respect thereof is determined on the basis of contribution as required under the Statute / Rules.

ii) Defined Benefit Plans:

The trustees of Balaji Telefilms Limited Employees Group Gratuity Scheme have taken a Group Gratuity cum Life Assurance Policy from the Life Insurance Corporation of India (LIC).

Contributions are made to LIC in respect of gratuity based upon actuarial valuation done at the end of every financial year using 'Projected Unit Credit Method'. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Gains and losses on changes in actuarial assumptions are accounted in the statement of profit and loss.

b) Short Term Employee Benefits:

Short term employee benefits are recognised as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

Foreign currency transactions

Transactions in foreign currency are recorded at the original rates of exchange in force at the time the transactions are effected. At the year end, monetary items denominated in foreign currency are reported using the closing rates of exchange. Exchange differences arising thereon and on realisation / payment of foreign exchange are accounted in the relevant year as income or expense.

Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

Operating leases

Assets taken on lease under which, all the risks and rewards of the ownership are effectively retained by the lessor are classified as operating lease. Lease payments under operating leases are recognized as expenses in accordance with the respective lease agreements.

Taxes on income

Tax expense comprises of current tax and deferred tax.

Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, using the applicable tax rates.

Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years / period. Deferred tax assets are recognized only to the extent that there is reasonable certainty, that sufficient future income will be available except that the deferred tax assets, in case there are unabsorbed depreciation and losses, are recognized if there is a virtual certainty that sufficient future taxable income will be available to realize the same.

Minimum Alternate Tax (MAT) credit entitlement is recognized in accordance with the Guidance Note on "Accounting for credit available in respect of Minimum Alternate Tax under the Income-tax Act, 1961" issued by the Institute of Chartered Accountants of India (ICAI).

Provisions and Contingencies

Provision is recognized in the accounts when there is a present obligation as a result of past event/s and it is probable that an outflow of resources will be required to settle the obligation. Contingent liabilities, if any, are disclosed in the notes to the financial statements.

Annexure A To The Independent Auditors' Report

RE: BALAJI TELEFILMS LIMITED

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of Balaji Telefilms Limited (hereinafter referred to as the Holding Company) and its subsidiary companies as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary company in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and preparation of financial statements

The accompanying Consolidated Financial Statements of the Balaji Telefilms Limited (BTL/Parent Company/ Company), Balaji Motion Pictures Limited, Bolt Media Limited, Marinating Films Private Limited, ALT Digital Media Entertainment Limited, Chhayabani Balaji Entertainment Private Limited and Event Media LLP (Subsidiaries) as aforesaid (hereinafter together referred as "the group"), have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards (AS) specified under Section 133 of the Companies Act, 2013.

Principles of Consolidation

The financial statements of the Parent Company and its subsidiaries have been consolidated on a line by line basis by adding together the book value of like items of assets, liabilities, income, expenses, after eliminating intra-group transactions and any unrealized gain or losses on the balances remaining within the group in accordance with the Accounting Standard 21 on "Consolidated Financial Statements" (AS-21).

The financial statements of the Parent Company and its subsidiaries have been consolidated using uniform accounting policies for like transaction and other events in similar circumstances. The excess of cost to the Parent Company of its investments in subsidiaries over the Parent's portion of equity at the date on which investment in the subsidiary is made, is recognized as "Goodwill (on consolidation)".

Use of Estimates

The preparation of financials statements, in conformity with generally accepted accounting principles, requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of the revenue and expenses during the reported year. Differences between the actual results and the estimates are recognized in the year in which the results are known / materialize.

Fixed assets

Fixed assets are stated at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation / amortisation and impairment loss, if any.

Depreciation / Amortisation

Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for studios and sets which are depreciated as per managements' estimate of their useful life of 3 years.

Leasehold improvements are depreciated over the period of lease on a straight line basis.

**Impairment loss**

At the end of each year, the Company determines whether a provision should be made for impairment loss on fixed assets by considering the indications that an impairment loss may have occurred in accordance with Accounting Standard 28 on 'Impairment of Assets'. An impairment loss is charged to Statement of Profit and Loss in the year in which, an asset is identified as impaired, when the carrying value of the asset exceeds its recoverable value. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

Investments

Current investments are carried at lower of cost and fair value. Long-term investments are carried at cost. However, when there is a decline, other than temporary, the carrying amount is reduced to recognise the decline.

Inventories

Items of inventory are valued at lower of cost and net realisable value. Cost is determined on the following basis.

Television Serials	:	At average cost
Films / Events	:	Actual Cost
Unamortised cost of films	:	The cost of films is amortised in the ratio of current revenue to expected total revenue. At the end of each accounting period, balance unamortised cost is compared with net expected revenue. If net expected revenue is less than unamortised cost, the same is written down to net expected revenue.

Revenue recognition

- a) In respect of commission programmes, revenue is recognised as and when the relevant episodes of the programmes (television serials) are telecast on broadcasting channels.
- b) In respect of films produced / co-produced / acquired, revenue is recognised in accordance with the terms and conditions of the agreements on or after the first theatrical release of the films.
- c) In respect of Events, Revenue is recognised as and when the relevant event is delivered and technical clearance is received from the broadcasting channels.

Revenue (income) is recognised when no significant uncertainty as to its determination or realisation exists.

Employee benefits

- a) Post employment benefits and other long-term benefits
 - i) Defined Contribution Plans:

Contributions are made to LIC in respect of gratuity based upon actuarial valuation done at the end of every financial year using 'Projected Unit Credit Method'. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Gains and losses on changes in actuarial assumptions are accounted in the statement of profit and loss.
- b) Short-term Employee Benefits:
Short-term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Balaji Motion Pictures Limited (the Company) as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of the revenue and expenses during the reported year. Differences between the actual results and the estimates are recognized in the year in which the results are known / materialize.

Fixed assets

Fixed assets are stated at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment loss, if any.

Depreciation / Amortisation

Impairment loss

At the end of each year, the Company determines whether a provision should be made for impairment loss on fixed assets by considering the indications that an impairment loss may have occurred in accordance with Accounting Standard 28 on 'Impairment of Assets'. An impairment loss is charged to Statement of Profit and Loss in the year in which, an asset is identified as impaired, when the carrying value of the asset exceeds its recoverable value. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

Inventories

Items of inventory are carried at lower of cost and net realizable value. Cost is determined on the following basis:

Films	Actual Cost
Unamortised cost of films	The cost of films is amortised in the ratio of current revenue to expected total revenue. At the end of each accounting period, balance unamortised cost is compared with net expected revenue. If net expected revenue is less than unamortised cost, the same is written down to net expected revenue.

Revenue recognition

In respect of films produced / co-produced / acquired, revenue is recognised in accordance with the terms and conditions of the agreements on or after the first theatrical release of the films.

Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Gains and losses on changes in actuarial assumptions are accounted in the statement of profit and loss.
- b) Short-term Employee Benefits:
Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

RE: BOLT MEDIA LIMITED

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Bolt Media Limited (the Company) as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**NOTE 1 CORPORATE INFORMATION**

Incorporated on November 19, 2012, BOLT Media Limited is a wholly owned subsidiary of Balaji Telefilms Limited and is involved in production of television content.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES**Basis of accounting and preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards (AS) specified under Section 133 of the Companies Act, 2013.

Use of Estimates

The preparation of financials statements, in conformity with generally accepted accounting principles, requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of the revenue and expenses during the reported year. Differences between the actual results and the estimates are recognized in the year in which the results are known/materialize.

Fixed assets

Fixed assets are stated at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment loss, if any.

Depreciation

Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for studios and sets which are depreciated as per managements' estimate of their useful life of 3 years.

Impairment loss

At the end of each year, the Company determines whether a provision should be made for impairment loss on fixed assets by considering the indications that an impairment loss may have occurred in accordance with Accounting Standard 28 on 'Impairment of Assets'. An impairment loss is charged to Statement of Profit and Loss in the year in which, an asset is identified as impaired, when the carrying value of the asset exceeds its recoverable value. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

Inventories

Inventory comprise of television serials/content which are at lower of cost and net realisable value. Cost is determined on the basis of average cost.

Revenue recognition

Revenue is recognised as and when the relevant episodes of the programmes (television serials/content) are telecast on broadcasting channels.

Revenue (income) is recognised when no significant uncertainty as to its determination or realisation exists.

Employee benefits

- a) Post employment benefits and other long-term benefits
Liability in respect of gratuity is computed based upon actuarial valuation done at the end of each financial year using 'Projected Unit Credit Method' carried out by an independent actuary. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Gains and losses on changes in actuarial assumptions are accounted in the Statement of profit and loss.
- b) Short-term Employee Benefits:
Short term employee benefits are recognised as an expense at the undiscounted amount in the profit and loss account of the year in which the related service is rendered.

Foreign currency transactions

Transactions in foreign currency are recorded at the original rates of exchange in force at the time the transactions are effected. At the year end, monetary items denominated in foreign currency are reported using the closing rates of exchange. Exchange differences arising thereon and on realisation/payment of foreign exchange are accounted in the relevant year as income or expense.

Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

Notes (Contd.)

forming part of the financial statements

Operating leases

Assets taken on lease under which, all the risks and rewards of the ownership are effectively retained by the lessor are classified as operating lease. Lease payments under operating leases are recognized as expenses in accordance with the respective lease agreements.

Taxes on income

Tax expense comprises of current tax and deferred tax.

Current tax is measured at the amount expected to be paid to/recovered from the tax authorities, using the applicable tax rates.

Deferred income-tax reflect the current period timing differences between taxable and accounting income for the period and reversal of timing differences of earlier years / period. Deferred tax assets are recognized only to the extent that there is reasonable certainty, that sufficient future income will be available except that the deferred tax assets, in case of unabsorbed depreciation and losses, are recognized if there is a virtual certainty that sufficient future taxable income will be available to realize the same.

Provisions and Contingencies

Provision is recognized in the accounts when there is a present obligation as a result of past event/s and it is probable that an outflow of resources will be required to settle the obligation. Contingent liabilities, if any, are disclosed in the notes to the financial statements.

RE: MARINATING FILMS PRIVATE LIMITED

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Marinating Films Private Limited (the Company) as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the Act)

We have audited the internal financial controls over financial reporting of ALT Digital Media Entertainment Limited (the Company) as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the period from July 1, 2015 to March 31, 2016.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of the revenue and expenses during the reported period. Differences between the actual results and the estimates are recognized in the period in which the results are known/materialize.

b) Short-term Employee Benefits:
